

Cases in General Ophthalmology

3-point interactive event for Optometrists and Dispensing Opticians

Tuesday 21st November 18:15 – 20:00

Newmedica Plymouth would like to invite you to participate in our upcoming 3-point CPD event which will be held at:

Newmedica Plymouth
Forder House
20 William Prance Road
Derriford
Plymouth
PL6 5WR

This will be a discussion workshop session covering the topic of 'Cases in General Ophthalmology'.

This discussion workshop considers three general ophthalmology cases which required critical thinking and clinical decision making in a community setting.

The first case requires differential diagnosis of an iris lesion whereas the second case discusses the ongoing management of a person discharged from an eye clinic with optic nerve head pathology.

The final case involves the differential diagnosis and management of a person presenting with corneal dystrophy.

Timings:

18:15 The doors will be open for registration, welcome drinks, light buffet, and tour of the facilities.

18:30 Event will commence with an introduction to Newmedica Plymouth led by Amanda Worley, Operational Director, followed by the CPD session presented by Mr Tomas Cudrnak, Consultant Ophthalmologist and Clinical Partner.

The event will conclude by **20:00**.

Seats are limited, so please book your place promptly [HERE](#)

If you have any queries, please contact jennifer.lewis@newmedica.co.uk
